

OLGA KURBATOVA

I'm a QA Engineer with experience in functional testing (manual). I'm testing web-apps, mobile apps, virtual voice assistants, API. I'm interested in business processes and test-automation (now studying Python for automation purposes), also I like to work with data.

- MS SQL/PostgreSQL
- Non-SQL DB (MongoDB)
- Python (basics)

LANGUAGES

- Russian (Native)
- English (B2)
- French (A1)
- Spanish (A1)

QA ENGINEER

WORK EXPERIENCE

QA Engineer

MegaFon | Jun 2022 - Sep 2022

Project: selfcare services mobile app (iOS, Android) for mobile operator Ucell (Uzbekistan)

What I did:

- Requirements testing
- Estimation of tasks, sprint volume planning
- Developing of check-lists and test-cases
- Test data preparation (json files, user parameters, environments configuration)
- Bug reporting
- Frontend/backend testing
- Testing of integration with external systems using Hoverfly for mocks
- Using GitLab: making new branch for test environment, testing in it using mocks, merging into master branch
- Communication with the team on different topics: working process, tasks, instruments
- Functional, UI, smoke, regression, acceptance, exploratory testing, bug-fix retesting

QA Engineer

Deutsche Telekom IT Solutions | Nov 2021 - May 2022

Project: automation of the internal vacation accounting and financial reports system (web)

What I did:

- Test-design & test execution, regression testing
- Estimation, refactoring and maintaining of test documentation
- Test data preparation
- UI testing
- Exploratory testing
- API testing (REST/Postman)
- Integration testing
- Communications with Product Owners, Developers, and Testers
